

Dear SEA Parents,

Girl scout troop 16653 is recycling crayons and markers. It does not matter if the markers are dull or not. It also doesn't matter how big the crayons are. We would like your child to help us. We are collecting markers to turn in to energy for lights and things that need energy. The crayons will be melting down to make new crayons, those crayons will be shipped to children's hospitals so that the sick kids will have something to do.

We will be collecting at school from now until the end of the school year. As students clean out their desks and lockers they will be given the opportunity to donate. If you would prefer they bring their crayons and markers home, please tell them so. Thank you for your help and support.

Information can be found at:
