504 vs IEP

The 504 plan refers to Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, which specifies that no one with a disability can be excluded from participating in federally funded programs or activities, including elementary, secondary or post-secondary schooling.

A 504 plan aims to make sure that students with disabilities get the accommodations they need to participate in school just as they would if they didn't have a disability.
